

P20W

Research Timeline

2008

“High School Feedback” reports funded with support from the National Governors Association and the Kauffman Foundation link data from DESE, DHE and DOLIR. No linked data are maintained.

2009

First SLDS grant is awarded to DESE. Focused on the conversion to K-12 student-level data.

2011

Missouri receives the first of two WDQI grants from USDOL; the first multi-agency data sharing MOU is signed.

Missouri begins building the Wage Explorer tool and a durable postsecondary-to-workforce system which will become the Workforce Longitudinal Data System (WLDS).

2014

Missouri receives a TAACCCT grant from USDOL; the Wage Explorer will be replaced by MoSCORES.

2017

Missouri receives a second WDQI grant from USDOL; further enhancements to MoSCORES.

An interagency Data Governance Committee begins meeting.

2019

Governor Parson directed a reorganization of state agencies and MDHEWD was formed.

2022

Governor Parson asks MDHEWD to conduct P20W capacity needs analysis.

2023

Governor Parson recommends and the General Assembly approves FY24 budget, including P20W.

Missouri is awarded a second SLDS grant.

2024

WLDS includes de-identified high school graduate data; the P20W team is in place and working with partners to analyze and document the data.
